3. Formula C – One feature with FF and one alone.
4. **Atlantic Pro Cup**
5. **“Luck of the Draw” Pursuit Race:** A special feature race for cars in Run Groups 1, 3, 5, and 6 is scheduled for Sunday morning November 3. This will be a race for cash prizes. There will be a “special twist” to make it very interesting racing. The objective is to provide a fun race in a different format with a monetary payout to competing drivers. This will be a Pro race where \$75 of the entry fee will be allocated for driver payout.

***The field will be limited to 50 cars, first come first serve.***

**Pursuit Race Format:** The ***Luck of the Draw*** race will be run as a Pursuit Race. This basically means the following format.

1. Starting positions based on fastest times from prior day’s races.
2. Slowest cars start first with gaps determined by delta of fastest times multiplied by the number of laps in the race. (eg: 2 second difference in lap time X 10 laps next car starts 20 seconds later and so on)
3. Start from grid one car at a time with calculated gaps.
4. Winner is first car to complete 10 laps and so on.

**Entry Deadline:** In order to set the grid, ***Luck of the Draw*** participants must register by 12:00 pm (Noon) Saturday November 2.

**Car Eligibility:** This event is open to **all closed wheeled vehicles in Run Groups 1, 3, 5, and 6** conforming to the current GCR for regional racing, SEDIV regional racing, and/or Atlanta Region regional racing rules. Rules can be found at [2019 ARRC Rule Set](#) on [www.SEDivracing.com](http://www.SEDivracing.com). **In order to be eligible for payout the car also must have entered and ran in prior days events or registered and run in the ECR/APCS qualifying session Sunday morning.**

**Grid:** This will be a Pursuit Race where cars will start in single file from the grid ordered inversely by fastest lap times from prior days races. If the car has not run in earlier races, and registered to run in the ECR times lap times will be determined by the Sunday morning ECR/CCPS qualifying session. Start positions will be assigned in reverse order to lap times. (i.e. the fastest cars will be at the back of the grid and slowest at the front of the line).

**Start:** The starter will be at the track entrance from the grid. Cars should proceed slowly to the start line and start only when given the green flag by the starter. Gaps between cars will be determined by the

difference in fastest lap times multiplied by the number of laps in the race (.5 second difference times 10 laps equal 5 second gap). Any car observed jumping the start may receive a black flag and a drive through penalty. In the case where lap times are equal or less than .1 seconds, starting position will be determined by track records with the faster class going behind the slower class. All groups will start from the grid on the Club side of the track.

**Race Length:** The race will be 10 laps or 20 minutes in length, whichever comes first.

**Winners:** Winner is the first car to complete 10 laps or 20 minutes.

**Impound:** All cars will report to Impound at Tech on the Club side of the track for Tech Inspection and the prize drawing.

**Payout:** Everyone gets one ticket for the prize drawing by entering and turning a wheel in the race. We will draw tickets for payout, with money going to 5 drivers 45%, 25%, 15%, 10%, 5%. Top finishers get extra chance at the drawing in the following allocation:

1<sup>st</sup> place 5 extra tickets

#### II. PADDOCK/PARKING INFORMATION

A) We will be using the Club Paddock located outside of the front straightaway. We ask that you work with us to accommodate the majority of your wishes regarding paddock parking. To that end, paddock parking personnel will assign and direct parking based on the size of your vehicles per instructions from the Paddock Chief using the following guidelines:

1. Single car set-ups will get a spot twenty (20) feet wide that is long enough to accommodate the tow vehicle and trailer if possible. All awnings and support equipment must fit within those confines. This allows the maximum amount of parking in desired areas.

### November 1 – November 3, 2019

- Multiple car teams and/or participants providing services to the Atlanta Region will be located to maximize their efficiency.
- Since paddock spots with power are very limited, the first priority is to provide electrical hook-ups to the maximum number of competitors.
- We request that open trailers not actively involved in support of a race vehicle be removed from the main paddock areas.
- Spectator and crew parking is limited in the paddock areas. Ride sharing and race team cooperation are appreciated. Personal vehicles not involved in rig loading or trailer activities must remain outside of the paddock until Load In is complete.
- If you have special requests, please let the Paddock Chief know prior to arriving so he can make appropriate arrangements.
- For Safety reasons the county Fire Marshall requires that access lanes be kept open. Vehicles parked in no-parking areas will be towed without warning.

B) **COURSE:** 2.54 Mile Michelin Raceway Road Atlanta main course.

C) **FLAGS:** Signaling will be done with flags. Station 9, on the back straight, is the Black Flag station. Individual Black Flags and mechanical "Meatball" Flags will be displayed at this station and at Start/Finish. A "T" for transponder and/or "SOUND" board may be shown along with the car number and black flag. When possible, a waiving White Flag will be shown at Start/Finish to indicate the last lap has begun. During qualifying and races the Checkered Flag will be displayed only at Start/Finish.

D) **SOUND CONTROL:** Sound Control per GCR is in effect at this event. All cars will be monitored on driver's left approximately halfway between Turn 8 and Turn 9 and must not exceed 103 db. Readings will be posted at the Tech.

E) **HARDSHIP LAPS:** Hardship laps are possible subject to the schedule and track condition. Hardship laps will be an out of Pits and re-enter the pits at the first opportunity. Hardship laps may be requested from the Stewards of the Course at the black flag station on pit lane.

### III. ECR & APC Notes:

- A) **ECR & APC Combined Format:** ECR entries (Group 9) and APC entries (Group 8) will qualify (see item II. N) and race concurrently. Both groups will be gridded based on fastest qualifying time regardless of series, then take the green flag in that order. After the 45-minute point a black flag and a “APC Only” sign will be shown to the leading APC car at Start/Finish and will remain out for an entire lap. This marks the end of the APC race and those vehicles running only the APC should safely but briskly proceed to Pit Road and, if appropriate, Impound. The ECR cars will continue until the checkered flag is shown at the end of ninety (90) minutes. Any “APC Only” vehicle disregarding the black flag will face disciplinary action and possibly further registration fees.
- B) **Special Note: Mandatory Pit stops for ECR, APC:** Both ECR and APC must make a mandatory 2 minute pit stop during the first 45 minutes of the race. During this pit stop you may change drivers but **refueling is NOT ALLOWED. ECR teams must still make their mandatory five (5) minute pit stop in accordance with the ECR rules in addition to the 2 minute stop. The travel time at 40 MPH for the club pit lane is 14 seconds. Add this to your pit stop.**
- C) **Special Note for APC:** Car eligibility will conform to the series current rules as noted in 2019 Atlantic Pro Cup Rules section 3.2. Many teams opt to run one driver per race, however rules allow for a driver swap allowing more drivers to participate and gain valuable seat time. *There is no charge for additional drivers.*

### IV. General

- A) **GRID:** No fueling of cars on the grid. No tractors, electric carts, or any other vehicles used to tow race cars or transport parts or related equipment will be allowed access to the grid. Only the Chief of Grid or the Chief’s delegate can grant exceptions.
- B) **Qualifying:** Saturday’s race grid will be determined by the fastest lap during the qualifying session. Sunday’s grid will be determined by the fastest lap during Saturday’s race or qualifying time. Due to the “seamless” nature of the qualifying sessions, cars will be gridded as they arrive for their sessions. The second group (when listed) should stage in the area before the false grid and enter the grid immediately after the preceding group enters the track. If a car’s time cannot be resolved due to incorrect entry information, inoperable transponder and/or incorrect/illegible car numbers, that car may not receive a time for that session. It is the driver’s responsibility to verify that entry data is accurate and that the correct operating transponder is installed on the race vehicle.
- C) **SPLIT STARTS:** Any race group may be given a split start at the discretion of the Chief Steward.
